

Musicboard Berlin
www.musicboard-berlin.de

Established in 2013, Musicboard Berlin GmbH is the only institution of its kind in Germany, serving to **promote pop music in Berlin**. It offers scholarships, residencies and support tour funding for Berlin acts as well as funding for innovative events, platforms, labels and other projects. Furthermore, it puts on the annual festivals **Pop-Kultur and Fête de la Musique**. As a central point of contact of Berlin's pop-cultural music scene, Musicboard advises locally-based musicians, bands, organisers and collectives while also fostering networking and dialogues in close cooperation with politicians and authorities. Musicboard's main concern is assisting the multifaceted music landscape by means of content-based music funding, developed in close contact with the music-makers and with a thoughtful approach towards diversity.
